STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Michigan
POLICY AND METHODS FOR ESTABLISHING PAYMENT RATES
(OTHER THAN INPATIENT HOSPITAL AND LONG TERM CARE FACILITIES)

The cost limit is applied by each subprovider within a hospital at the time of the hospital settlement. The Medicaid outpatient payment by subprovider is limited to a maximum of the Medicaid costs for that subprovider. The cost limit test is applied to all payments including the outpatient share of direct medical education, but excluding any special indigent pool payments.

Aggregate Medicaid reimbursement to Michigan outpatient hospitals (including the special indigent pools) will not be allowed to exceed the Federally imposed upper limit for outpatient services provided to Michigan recipients. To account for varying hospital year end dates, this test will be made annually based on hospital fiscal years ending during the State fiscal year (e.g., the test for 1996 will use hospital years ending between October 1, 1993 and September 30, 1994). If the upper limit is exceeded, the size of the special indigent pool will be reduced by the amount in excess of the upper limit. If the upper limit test supports our claim that Medicaid's total payment is less than the Medicare payment would have been for comparable services under comparable circumstances, the amount up to the upper limit may be dispersed to the qualifying hospitals.

09/01/96 Between September 1, 1996 and September 30, 1996, qualifying children's hospitals will share in an outpatient adjustor pool of \$695,000. This payment will be in addition to the regular indigent volume and indirect education adjustments normally included as part of the fee screen based payments.

09/01/96 Eligibility for the pool is restricted to freestanding children's hospitals as defined for the purpose of the Medicaid Indigent Volume Report (Medical Assistance Program, Hospital Manual, Chapter VIII, page 19, item#3). Indigent volume charges and children's hospital status will be determined from the Medicaid Indigent Volume Report for hospital fiscal years (FY) ending between October 1, 1993 and September 30, 1994. To be eligible a children's hospital must have incurred outpatient indigent volume charges (for hospital fiscal years ending between October 1, 1993 and September 30, 1994) in excess of \$40,000,000. These data have been subject to review and appeal and will not be changed. Each eligible hospital will share in the pool proportionately using the ratio of the hospital's FY 1996 Title XIX estimated outpatient charges to the sum of FY 1996 Title XIX estimated outpatient charges for qualifying hospitals.

09/01/96 The \$695,000 will be paid on or after September 1, 1996. This payment will be made based on the best data available.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Michigan
POLICY AND METHODS FOR ESTABLISHING PAYMENT RATES
(OTHER THAN INPATIENT HOSPITAL AND LONG TERM CARE FACILITIES)

09/01/96 Payments made during FY 1996 will be estimated payments and will be adjusted to a final amount based on actual amount paid for state fiscal year 1996, as of December 31, 1997, excluding direct medical education payments and payments from this pool. The paid claims include Title XIX and Title V/XIX paid claims from provider types 40, 41 and 75.

09/01/96 For purposes of this pool, Medicaid outpatient hospital reimbursement to any single hospital will be allowed to exceed the hospital's Medicaid outpatient charges and Medicaid payments may exceed a hospital's outpatient Medicaid cost. The special indigent payments made under this provision will be exempt from the outpatient hospital charge and cost limits.

The State collaborates with the Michigan Department of Public Health (MDPH) on a Vaccine Replacement Program (VRP). Vaccines are provided free to enrolled Medicaid providers on a replacement basis to immunize Medicaid eligible. Providers are reimbursed an enhanced administration fee to encourage their participation. The department reimburses the MDPH the government price for each dose of vaccine administered, in addition to a per dose handling fee and spoilage allowance. Providers may also request the manufacturer's cost of vaccine if they elect not to participate in the VRP. The department establishes the reimbursement rate for purchased vaccine by allowing the lowest most commonly available cost to purchase the product in multiple dose units plus a nominal administration fee.

Outpatient hospital psoriasis treatment centers are reimbursed a rate based on estimated and historical costs of psoriasis treatment centers certified by the Medical Services Administration. Reimbursement will be the lesser of the hospital's charges or the established Medicaid rate for the treatment episode. The rate includes all services that may be provided to the recipient, except physician services. Physician services are reimbursed separately as clinic visits. Outpatient hospital psoriasis services rendered to recipients who do not meet the specified admission criteria for the psoriasis treatment centers are reimbursed under the current fee for service system.

4. Home Health Agency Services

Reimbursement to home health agencies is made in accordance with Medicaid's maximum fee screens or the home health agency's usual and customary charge (acquisition cost for medical supply items), whichever amount is less.

5. Rural Health Clinic Services

Payments for "provider clinics" will be on the basis of Medicare regulations in part 405, support D, 42 CFR. Payments for non "provider clinics" will be based on the Medicare cost rate per visit for rural health clinic services. Payment for other ambulatory services will be made on the basis of reasonable charges, as defined in 1. above.
